Light and stable aluminum lighting stand. The 3-piece extension reaches a height of 3,097 mm. The transport dimension of the collapsed lighting stand is only 1,170 mm. Compared to other lighting stands the transport size is very economical. The integrated M10 socket provides for the installation of a single lighting fixture or the use of different crossbars. Additional locking rings provide for more safety and expanded functionality. Thanks to the integrated adapter, loudspeakers can also be attached to the stand using 36 mm flange bushings.
